98%

ALMOST ALL FINNS LIVE FOR GOD

God has big plans for Finland. On the previous page, Children and young people, there are already a few gaps, the views that are, soon, real in our midst.

On this page, we continue the narration of the future things that God wants for Finland, regarding one of God's vast works.

As mentioned above, on the Children and youth page, by God's sovereign work, all children and youth in Finland will come into contact with God.

That thing is very broad. You can imagine that another million Finnish citizens have become obedient to God at that time. It can be thought that in every Finnish family, there is a family member who believes in God, in God's will. Or at least so that every Finn has a person/persons in their close circle who are obedient to God.

What, once upon a time, at the time of the apostles, was the powerful action of God's Holy Spirit, which e.g. finished the Bible in its clothing, in the last revival of the ages the activity of the Holy Spirit is many times compared to the previous one.

When you know that the children and youth of Finland are not taught by any human being, they know the life of faith, what it contains in everything, but in their case God's Holy Spirit, teaches them as individuals and at the same time guides them, alone and together, to act, the whole nation of Finland to become like this To obey God.

For the children and young people of Finland, all the graces of the believer will work, so that their families and relatives, all of them come to God.

Our human mind has no grip on what God has planned for the future change in Finland.

What, God is bringing our time,
through little Finland, it is superior
in the glory of God!!

However, there are also those who do not want to come into contact with God, even though in their families God works for others, no matter how powerfully. In the future, people disconnected from God will be only a small fraction of the total population of Finland.

When God told Brother J about the realization of Finland's national vocation, it also became clear how Finland, in a very short time, will become completely obedient to God. The matter is great and the glory of its God is also superior.

Only some tens of thousands, or slightly more than 100,000 people, are Finns in the case of Finland, disconnected from God. As for the people of other nations in Finland, God has not said anything about them, in connection with Finland's national calling, at this point, but it can be assumed that their number is still on top of that previous estimate, if they are right, out of God's communion.

*Jumalan
kohtaaminen,
täyttää, nyt
tyhjinä olevat
suomen kirkot
ja muut tilat,
Jumalaa
ylistävillä
suomalaisilla.*

When you understand that almost all of Finland in terms of population will soon serve the Living God, then the matter will not affect everything, everything in Finland's living and being.

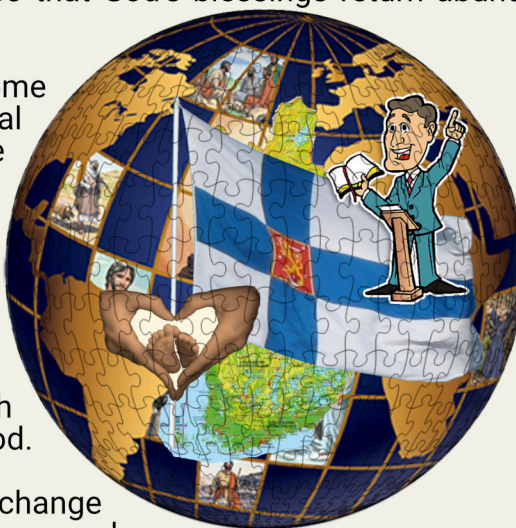

The land of Finland and its people, by the power of God's Holy Spirit, throw away their sinful thoughts, tendencies and actions, making a complete separation from them.

The whole society, in this way, enters the path of wholeness and healing, where the weakest and least of the people are raised as equals alongside others, so that God's blessings return abundantly, from one point, to our people and our country.

When Finland is full of believers, it has also become clear to them that the Bible has a precise national vocation for Finland, that our country and people are in God's work, that heaven will be filled with that part that is needed for the rapture of believers to heaven, before the world moves into the 7-year tribulation period, after which there is still the Bible's told about the thousand-year kingdom, when Jesus reigned then on earth.

It seems incredible that even 98% of the Finnish people can soon be in a personal relationship with God.

However, Brother J. cannot go out on his own to change things that he has heard from God. After a while we see how things will happen, in our midst.

*In meeting
God, Finland
becomes
blessed,
becoming
whole and
takes the
gospel to the
ends of the
world.*

GOD'S PROVIDENTIAL PLAN FOR THOSE LEFT BEHIND

The following thing that God told Brother J brings a little more concreteness to the matter, in connection with the above matter.

God has said before, when the reality comes to Finland that almost the entire nation is in a personal relationship with God, then a system must be created whose operation will be activated in the period after the rapture of believing people to heaven.

If we think that almost the entire country of Finland will be empty of people, after the rapture of believers into heaven, then all activity in everything will stop and those who remain here will have no chance of life.

You have to create a centralized area where e.g. food and fuel etc. to the warehouse. The apartments in the area are also largely maintenance-free in terms of heating and other things. As far as it is technically possible, the electricity works in the area, and the waste management is also highly automated, and what has not been able to be made to work on its own for a long time, complete guides have been reserved for them, so that you can learn them and thus take care of things.

Some cattle farms and the like need to be taken care of, and in farming, too, things need to be taken care of, as they are happening now, so that there will be enough food in the future.

Precise plans must also be made, how everyone from all over Finland can get to that place that will secure the continuation of the time after the rapture.

As a region, that area of land and its place must also be planned carefully, and how God will take care of it.

No matter how carefully you plan the matter, the future "security" of those left behind is just a very **s t r i p p e d - d o w n** framework for continuing life in time, in the land of Finland.

If only a few percent, or even a few tens of percent, thought that the number of believers would be Finns, in the future rapture of believers to heaven, then society would not be completely paralyzed, that it would be necessary to take care separately of the earthly survival of the remaining ones, here on earth in the time of trouble.

Why is there a Word for Finland in the Bible, the matter has been opened before, this **98%** and the previous one, Fulfillment of the Call page, sub-page, **Children and young people**. In the future, many points can be read about the matter, on the following subpages of the matter, which build a good enough overall picture of what God wanted to bring to the attention of the people of Finland, that they should be ready in everything for the Word of the Bible to come true for the people of Finland.

An area will be made in Finland, the lives of those left here in the rapture will be made possible there, as gently as possible.

**GOD CARES ABOUT EVERYONE,
AND THOSE WHO WERE LEFT BEHIND
IN THE RAPTURE OF FINLAND ALSO FEEL THAT.**
