FALLING PAYMENTS

FINNISH ROAD, GO ACCORDING TO THE RULES

The Bible is completely true and what it tells, the reality of sowing and reaping, cannot help but touch the population of Finland, too, when it has, by God's action, turned to serve God.

In this time, we have probably almost all heard, prophecies that are very telling how we can have / will have to, as a nation, reap the harvest of our truly destructive sowing.

God is Finland's protective wall, when as a nation we have turned to God.

What God said about Finland's path, God has specifically said, for example, that Finland will not be "trampled by a Russian soldier".

How will things go, so that the revelation of the Bible's Word in everything comes true? How the world works in everything has already been explained above, on the **Sowing & reaping** page, on this website.

PARTLY, THE PAST AFFECTS, IN THE FUTURE FINLAND

As mentioned above, the world works in everything, through God's perfect plan, to make life here possible.

Our nation is made up of individual people and each of them makes their own choices, in which they decide in their daily choices whether they will sow good or bad in their own lives and in the lives of others, and the harvest will grow according to their kind.

When all the people of Finland are already soon, in the future, believing in God, doing God-pleasing deeds, in abundance, then according to the law of growth, a powerful new sowing will suppress the evil, previous sowing below, and no evil harvest can grow from it, for anyone, for the harvest.

What, you can understand, but there are, despite everything, things from which, as a nation and as individuals, we have to "cut the bad harvest".

Almost immediately, after our last wars, there began, very sadly, a relaxation of sexual relations among us, which has since led to many bad things for our people.

Finland is broken in any way, like, just the lack of a lot of people in our midst. God will restore Finland so that we can fulfill the Word of the Bible for us. Finland has a wonderful road ahead of it.

Since that time, e.g. have been removed from our midst, the people God wanted here, with abortions, that we are not as a nation, the populous nation that God would have our nation to be.

When we currently lack around 1.5 million Finnish fellow human beings, it cannot help but be affected by the fact that we are lacking and deficient in many ways, e.g. To intervene in the case of Finland, good, God-minded leaders from among us, planned for it by God.

- These people, who are now missing, would be in working life, so that Finland would have enough people, in various fields, which are now lacking personnel.

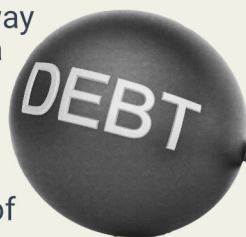

Likewise for families, their lives would be "perfect" when their "support network" was fully intact, and the state of families would not be broken, as the state of our society is now. Society has to invest large amounts of wealth and labor, now in the case of bad things in families and their condition cannot be improved even with great efforts.

OF THE PAST, THOSE WHO BEAR THE RESPONSIBILITY, THOSE WHO DECIDED ON MATTERS

As you may know, we have been in our midst for several decades, e.g. at the head of the state, to "take care of things", to lie about things to the people.

At that time, "the people are ignorant", for example taken to a vote, in some matters and the "result" thus obtained, before God, is that the "leaders" are responsible for the bad state of affairs.

There are many things "handled" in this way in our midst, things that take Finland to a worse state. In the future, after Finland has turned to God, all issues will be fully clarified and then, our "leaders" of the past will be held personally responsible for the lie-filled things they did, in the case of Finland.

With that, God's truthful practice, Finland, as a nation, after turning to God, "throws everything", at it, e.g. obligations and commitments and covenants made with a lie.

Thus, Finland will be freed from the EU and NATO, and e.g. numerous deals with a loss for Finland are dissolved when it becomes clear that criminal persons have acted in them, on behalf of Finland.

Our "false leaders" of previous times have also become believers in God in the new time and accept their previous evil sowing, the harvest falling on themselves.

However, their future good sowing is suffocating, the old sowing will no longer greatly grow, to its harvest, for them.

The atmosphere in Finland of the future will be very different from what it is in our midst now. Strife and dissension are gone from our midst and the whole nation is united. This is how our former, bad decision-makers can leave the bad behind them, and let new good grow from their lives to enrich the well-being of our people.

After Finland has changed, its former "wrong leaders" realize that they have to take responsibility for the decisions made with lies for Finland.

FINLAND'S FUTURE, GOOD, GOD WILLING

What, God has seen to it that a great task has been written in the Bible for the land and people of Finland, for these end times, so it would not be possible if God had not delayed his punishments for Finland, for the current sinful life of our nation.

What God has planned for Finland, for it to be at work, for the "last great harvest of souls" to take place in this time, before the believers are taken to heaven, so the great thing about it all, and especially the honor and thanks to the Living God that comes from it, is incomparable, when billions of people come to God.

It wouldn't make sense from God if in the case of Finland, e.g. Russia would be allowed to take over a part of Finland and this would greatly hinder Finland's vocation mission written in the Bible.

God, in his long-suffering, has waited for a long time that in what is coming to Finland, a lot of good sowing will grow, a harvest that will overcome the bad sowing of our people in the past.

It is impossible to know why there have been prophecies in the past that have been very much predicting destruction for Finland. When Brother J. asked God about this matter, he received the answer that Brother J. is only responsible for the things that God has entrusted to him and the rest must be left to God.

God is not bound by time and He also knows the future, what it will bring. This way, God does not have to hurry, also in the case of Finland, to punish it for the transgressions of our people, when God can immediately, greatly bless Finland, when we are in our vocation work, gather many people to God.

God likes the new state of Finland and blesses our people.

OVERCOMES THE SOWING OF OUR FORMER SINFUL LIFE.**
