COMPLETION OF THE NORTH

FINNISH EMIGRATION, PREPARED FOR THE FUTURE

As already mentioned above, on the previous publication page, it has become clear that God has used/is using Finland's past many times of distress, that now, almost everywhere in the world, there are Finnish immigrants, even in most generations, in God's plans, ready, for Finland and Finns, a broad evangelization will immediately begin, when God has faced Finland and the Finns, with his mighty power, everywhere.

What, there are Finns in Sweden, Norway, Denmark and Iceland, it's not just that they can speak Finnish there and the rest of the national culture is also used in their lives.

Through God's best intention, there is a large Finnish population in Scandinavia, outside of Finland.

Finns have spread all over the world, in God's best will.

What can be understood, about the future of Finland, the Finnish people faced by God, the whole society will be "turned upside down" in a well-intentioned way. What God has planned for our neighboring countries is also very big, God's best.

What God will do for Finland, there is no reason to expect anything less for our neighboring countries. God's work by Pohjola, reaches billions to the halls of heaven, to the joy of eternity. It is the most important thing to God.

GOD HAS NOT FORGOTTEN THE EAST

As we well know, there are Finns, also beyond our eastern border, through many stages, e.g. that they have never come to the chamber of the land of Finland, to live here.

In God's loving plan, Finns have been "left on the way" to the territory of present-day Russia.

Even in the case of these people who "belong" to the Finnish people, God sovereignly acts when it is God's time for the Finnish people to become obedient to God.

Russia also needs a spiritual awakening, that's why not all Finns ever made it to Finland to live.

This is how they are now in Russia and elsewhere in the East, on an "interrupted journey", that they can reach those around them, in God's Love, as God's time dawns on the people of Finland, everywhere.

THE JEWISH EXODUS FROM THE SOVIET UNION WAS LEFT UNFINISHED

As we can see and know about Finland, our people in the 1980s and 1990s, by the decision-makers and leaders, did not want the then Soviet Union, through our country, to greatly accompany the Jews of our neighboring country immigrating to Israel.

God had, before that time, caused many believers to prepare themselves with farms and other necessary things, to meet the needs of the Jewish immigrants from the Soviet Union here, for them to continue from here, all the way to Israel.

*Finland, at
Jumla's will,
completes the
migration of
Russian Jews
to Israel.*

Has come, e.g. to the knowledge that someone had been given the task of procuring buses, so that the migration of Jews to Israel would also be possible.

What, many things, now also numerous believers in Finland are carrying, regarding the migration of Russian Jews, their cause will expand, when many people will join them, things will finally come true in our midst.

The truth, however, in our time is that there are still many Jews in Russia, whose time of exodus is soon at hand, the Bible also knows about the return of the Jews to their homeland Israel.

Finns, also from other Nordic countries, participate in the migration of Jews from Russia to their homeland Israel.

When Finland, as a nation, is already obedient to God, then also the Jews of Russia, it has been counted in their hearts that their return home, to Israel, can be completed through Finland, and by acting in the cause of our nation.

As the Bible very clearly states, whoever blesses the Jews and Israel, God is bound to bless. When the people of Finland, in the future, complete the exodus of Russian Jews, it will be a great blessing for our nation.

FINNS, IN THE NORTH, IT IS GOD'S PLAN FOR MANY TO COME TO GOD.
