FINLAND'S REVOLUTION

ALMOST EVERYTHING CHANGES IN FINLAND

As already mentioned above, on the previous pages of the publication, the changer of Finland, God's sovereign action, saving the land and people of Finland, is the most powerful, changing Finnish society, away from its current line of destruction, away from being destroyed as a nation.

Betrayed by its life of sin, Finland is almost doomed, but God is faithful to the Word of the Bible and saves our nation from destruction.

How things will be in the future, after Finland has changed, and how everything will work in a completely new way, no one knows or bothers to think about it now, but it is about to prevail in our midst and that is why this publication has been brought to your attention, on this website.

In the future, it will be understood that after God purposefully allowed Finnish society to drift, almost to destroy Finland, that in the future, for all the good in the middle of Finland, only the Living God will receive all the honor, thanks and praise.

Now, the thing, Finland's own state of human destruction, has been covered from the people's side, when we as a nation have swallowed the devil's lie that there is no God and we ourselves can and know how to help ourselves with all things, as best we can.

THE BIBLE AS FINLAND'S SUPREME GUIDE

After God saved the people and land of Finland, from its destruction, the people finally understand that the Bible, the Eternal Living Word, given to us by God, is the best guide and norm, for nations to live their lives in time, that individuals themselves and all their relatives, can live fulfilling and fulfilling lives, for their temporal and eternal good. God will not fail Finland.

As it is now, it is impossible to rationally think that the society that now prevails, which has renounced God, could change in an instant, into a representative of a completely different direction. Finland has slowly sunk into the negative, wrong development that happened after our last wars, that happened through secularization and rejection of God, in many ways, to be in the interest of society, while serving the deceitful pleasures of sin.

After God saved Finland from its certain destruction, the result is that the enduring values of the Bible have been raised as guidelines for our society.

THE MARRIAGE OF A MAN AND A WIFE, AS THE ONLY FORM OF PARTNERSHIP

In Finland, renewed by God, we respect the marriage of a man and a wife, as the only form of relationship.

In the future, many "family models" that are contrary to God's will and that break and destroy our society in many ways will leave Finland, when the foundation of society is God's, as told to us in the Bible, the marriage of a man and a wife, as the only form of a relationship.

At the same time, it is understood that abortion is the murder of a child and thus a sin, so the matter is made prohibited, in other than situations where the life of the child's mother is threatened during the pregnancy.

And even in these cases, we always turn to God, how can God act in the matter, that there is no need to have an abortion, etc.

It is also understood that Finnish society lacks a large number of people who have been eliminated from our midst through abortion, and the issue is having an effect, for example, that there is a lack of working hands, in many work sectors, and a lack of close people who would enrich the lives of their relatives, etc. in the everyday life of people, God with all the best will.

It has also become clear that abortions are murders, for which we must turn to God in repentance and repentance, that as a nation and as individuals, we can be forgiven, and that there is no longer a consequence, on our people, of the lack of God's blessings.

THE BIBLE IN THE HONOR SCHOOL

In Finnish daycare clubs and schools, the days will be opened in different ways in the future, bringing faith in God to the fore in their mornings. Also, all teaching is organically connected with a living faith in God, and thus the Finnish school system "experiences a new coming", when God comes to bless our nation in abundance. Now our children and young people are sick in many ways, not the least of which is the safe, caring, living relationship with God that was robbed from them.

It cannot be overemphasized that once the environment of our children's and young people's lives, in schools and at home, has become God-respecting, it can only have the best consequences for society, in numerous, numerous, different ways. Not least our children and young people are not doing well, which results in huge wealth savings when they don't e.g. feel the symptoms and don't need treatment etc.

It is natural, after Finland became obedient to God, that the matter affects the school world, bringing the same thing to the fore there as well.

THE POLICE AND THE JUDICIARY ARE FACING THE TRUTH

In the new, God-changed Finland, the Police and Justice Department, like the rest of Finland, consider the Bible's enduring instructions to be the most important for society.

In our time, now, the Finnish Police and Justice Department are deeply corrupt and thus do not serve the good of our people, not to mention the best. It has happened little by little, unnoticed, and now these parties are better at torturing than taking care of society.

If Finland turns to the truth, it also results that the Police and Justice Department will start to act based on the truth in the future, taking good care of the right to be realized in the middle of society.

The fact is that there will be a great retroactive clarification of things, all previous things that are against the truth will be brought to the basis of the truth, and new things will be dealt with correctly right away, based on the truth.

All in all, getting all the retroactive issues resolved based on the truth requires a lot of effort and also time, but things have to go through so that the people will have confidence, in the future the actions of the Police and the Judiciary will be based on the truth in everything.

THE TRUTH IS REVOLUTIONIZING HEALTHCARE

What is happening now, always only expanding, tax funds are used in our society, more, for the "treatment" of increasing diseases and especially in society, completely self-inflicted problems, there will be a big change in the matter, when the Divine truth removes the lie from society.

Now it is not seen that the lie prevails widely over society and e.g. the infiltration of the worldwide "corona lie" into Finnish society, as it happened, in a very unfortunate way, tells us harshly, to those who understand, how bad Satan can riot, through lies in our midst. Among us, those who have seen it have been wanted to be branded as social nuisances and otherwise "violators of social peace", on completely false grounds.

When the truth prevails in the middle of our society, e.g. it is understood that people are ALWAYS BORN IN THE RIGHT BODY and in the case of our children and young people, correct information is confirmed, thus removing the many problematic situations that previously existed, when it is possible, of a person "being in the wrong body".

In the case of healthcare, there will also be other considerable savings, when believers in God understand that through prayer, through the power of the Name and Blood of Jesus, the prayer of faith can heal both "incurable" and other diseases, deformities and injuries caused by accidents and e.g. missing limbs, etc.

SUMMER FESTIVALS ETC. TURN INTO AN ENCOUNTER WITH GOD

After the people of Finland came into communion with God, now, the summer festivals and other occasions that serve as places of satan worship (misled people, in reality, at secular summer festivals, exalt Satan, as the ruler of their own lives, to their own eternal destruction), change from occasions of death to occasions of life and health.

Thus, let them come, alongside the summer celebrations organized by different church groups, now in our midst, to glorify the Living God, as the only right and true thing to worship and according to whose will to live, in all kinds of temporal well-being, materially, mentally and spiritually, in terms of soul, body and spirit, the thing to once take us, prepared by God for us, to eternal joy and rejoicing in heaven.

Even the summer dance stages get new content when the people have found connection with God.

Summer festivals get a new, best object of worship, Jesus, after Finland becomes obedient to God.

There is no longer a desire to dance to the rhythm of worldly music, but now the praise of God brings much better good into our lives than dancing can ever bring.

Other operating models in our society that draw from the "cracked wells of the world" are also changing to ones that rely on the truth, or disappear from our midst.

The soothsayers realize that they act as pawns of Satan, to the destruction of themselves and their loved ones, and stop their activities.

Yoga is understood as coming from darkness, and everything that represents it and is related to it, is removed from society.

Homeopathy and similar "forms of treatment" emerging from the dark will be left without customers, when people become aware that these things are, also Satan's delusions, when people end up in eternal perdition.

By illuminating the truth in Finnish society, everything, the darkness now in our midst, in the case of various non-Christian "congregations" and "secret societies" will be understood as coming from Satan and it will be abandoned in Finnish society.

There is not a small number who will find the truth when Finland, by God's sovereign action, straightens up to the truth and serves God.

THE CONGREGATIONS ARE RENEWED TO GOD'S TRUTH

What, now, our "people's church", the Evangelical Lutheran congregation, has completely deviated from the Eternal basis of the Bible, it is also experiencing a complete reformation and purification, after Finnish society has become obedient to God.

Also in the free Christian churches of our society, there have been many kinds of detachment from the Bible's Truth. Against the order of creation, the acceptance of homosexuality is e.g. taken over society, not to mention other distortions.

It has been said that the current congregations, which have deviated from God, could no longer be reformed, living again by God's will. The matter must be left to God, God does not fail, in the case of Finland.

God is powerful to renew, including the churches of Finland, our country and our people in the coming revolution of good.

However, Finland will be strong, the living Christian church will prevail in the whole society, giving it a solid content that e.g. we fulfill the matter of our calling written in the Bible, regarding the life of our people.

LEAVING SLAVERY BEHIND

After the lies are revealed in Finnish society, many lies that enslave our society are revealed.

The EU will collapse, followed by other nests of lies and corruption, after Finland becomes obedient to God's Truth.

The EU and everything related to it, in the case of Finland, will be found to have happened with a lie, and thus we will "separate" from the EU with a simple notification, and the EU will be obliged to compensate Finland for the harmful, material and immaterial things that happened to our country and our people, jointly and severally with our people, Finland's own people who acted with lies in these matters with.

It follows that e.g. the corrupt EU, UN and NATO, "dominoes" will fall and "there will be a state" where the writings of the Bible, e.g. As for Finland's vocation, they can make it happen by force.

Through the power of lies, the EU, the UN and NATO are now considered to be immutable, sustainable institutions, but they, based largely on lies and corruption, are already close to their downfall, because lies "have been appointed, the day of their revelation", they must be lies.

LIES ARE EXPOSED IN FINNISH SOCIETY

For decades, by our governments and with the help of other actors in Finland, "Finland" has been "sold" in many places, causing damage and harm to our country in many ways and significant losses of property and wealth.

Many state actors, which have been the support structures of our society, have been sold off. E.g. our own fertilizer production with the sale of Kemira, was brought down, the issue is to be followed in many ways causing harm and costs to Finnish society.

Kemira has been followed by many other things that break our society, in different shops.

Among other things, the "robbing of ore" by foreign companies has been made to happen in our midst, resulting in the environment, humanly irreversible, extensive damages, their lack of care and compensations.

All over the world, in the name of ecology and "environmentalism", we have also seen "wind farms", when in many ways destructive and also ineffective "windmills", have taken over the premises, bringing with them things that are considered conspiracy theories in our midst, but the truth is that many people have become ill, to strange illnesses when they are near windmills, even for short periods of time.

In many ways, Finland, now robbed, will in the future receive compensation with interest for the wrongs done to it.

THE MEDIA FIELD IS RENEWED ON THE BASIS OF TRUTH

The widespread abandonment of God in our midst, and thereby widespread secularization, is to a very large extent the result of the misleading work of our mass media committed to lies. It is true that a lost person does not realize that he is lost.

The tentacles of the lies of the mainstream media extend everywhere in our society, so that lies are widely regarded as truths and e.g. truth tellers are often labeled as spreading lies, completely wrong. Lies are not without producing, also monetary losses, when other bad things also follow, from lies in society.

After the society turns away from the truth, it is an immediate consequence that the people will recognize the decades of being led astray by the lie, and the lie must retreat from all parts of society, including the mainstream media, which is now committed to lies.

After the Finnish society comes to the truth, the matter cannot help but affect the Finnish society more broadly, many significant things will happen, that in everything the Word of the Bible, this can happen in everything.

Here was, only for some of the most important things, a narrative about which a sharp change will take place when we, as a Finnish society, have experienced God's sovereign intervention, our nation thus avoided destruction and at the same time made possible the fulfillment of the Bible's Word for our nation, in this time.

God is faithful to the Word of the Bible, to renew Finnish society, to live according to God's will.

It is, indeed, humanly impossible for it to happen in our midst, but that is precisely what makes the Finnish people thank, alone, the Living God.

Mainstream media will also communicate the truth, as a result of Finland's future renewal.

**FINLAND'S UPHEAVAL SHAKES NOT ONLY FINLAND,
BUT THE WHOLE WORLD EXTENSIVELY.**
