DISASTERS HAVE BECOME EVERYDAY IN OUR TIME

GOD'S PLAN, TO PROVIDE ADVANCE AID TO VARIOUS DISASTERS BY FINLAND AND ISRAEL, IS UNPARALLELED. DISASTER RELIEF OPENS PEOPLE UP TO RECEIVE, ALSO THE BEST MESSAGE ABOUT THE SALVATION OF SOULS.

DISASTER ADVANCES

THE END TIMES BRING MORE AND MORE UPHEAVALS

10 NATION WILL RISE AGAINST NATION, AND KINGDOM AGAINST KINGDOM.

11 THERE WILL BE GREAT EARTHQUAKES, FAMINES AND PESTILENCES IN VARIOUS PLACES, AND FEARFUL EVENTS AND GREAT SIGNS FROM HEAVEN.

-

THIS TIME, FORETOLD IN THE BIBLE ABOVE, IS NOW IN OUR MIDST AND ITS EFFECTS WILL AFFECT MANY, ALL OVER THE WORLD.

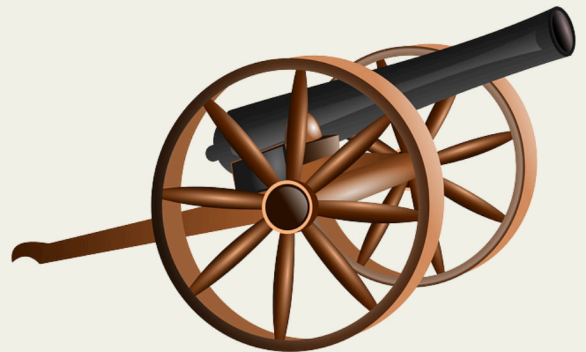

THE GOSPEL OF LUKE 21:10,11

We, for these end times, have written in advance in the Bible, in the end times to increase greatly, e.g. various natural disasters and infectious diseases, as well as wars and various disturbances. Things, including increasing people's fear, which also turns into anxiety, when things pile up.

Among others, the Bible passage, **Luke's Gospel 21:10,11** tells how one important part of the end times are the greatly increased wars and various natural disasters, etc. Migration diseases and famine, with their other consequences, will become widely known among us, in our time.

Wars and unrest will, increasingly, continue until the end of this age. The matter brings with it many other upheavals.

FINLAND AND ISRAEL, ADVANCE AID IN DISASTERS

God, in his great wisdom, has planned, for these events and things that are increasing in the world, the help that Finland and Israel, together, will implement, with the national airlines of their countries playing a big role in the matter. In these planes, the companies' emblems are the flags of their countries on the side rudders.

Years ago, God told Brother J that there will be action, pre-action, e.g. in the case of earthquakes, that God has told, to the believing people working within the scope of the matter, an earthquake that will come at a certain time. We have to prepare for this matter, with the joint efforts of Finland and Israel, by taking to the place and getting it nearby, gathering food, medicine, water, tents, accommodation facilities, etc., and also organizing a lot of other things to take care of, just in case.

In God's will, Finland and Israel have taken, among other things, field hospitals in cooperation between Finnair and El Al, in advance, at various disaster sites.

Clearing equipment must also be procured for the site, from near and far, whatever is deemed necessary.

For the locals, informing and educating them about the future disaster is key, it is also an important part of the matter that the damage of the disaster should be as small as possible.

Of course, there is a very great Divine influence in the matter, when large groups of strange people come to the place, but they turn out to be believers in God, who are there, reducing the coming disaster, its effects, in every way, and helping and rebuilding the society in the future, even to a worse condition than it had previously been, before the disaster.

EVERYWHERE, HELP COMES IN ADVANCE

Not forgetting floods, earthquakes, volcanic eruptions, storms, disease epidemics, famines, wars and various unrests, etc., many of all kinds, are increasingly in our midst, as the Bible tells us in advance, things.

God's best plan is for Finnish and Israeli airlines to operate everywhere in the world, where, according to God's announcement, different exceptional conditions are coming.

Beforehand, in addition to the equipment, various disaster sites are taken, e.g. information about the upcoming issue, as well as educating the locals, what they can do to help in the event of a future disaster.

What other thing in the middle of our time could raise the glory of God in our midst more, when God brings Finland and Israel together to help in the case of various disasters, already with advance help the effects of the upheavals remain at the point of losses, as small as possible, in terms of matter and people.

TO BE KNOWN EVERYWHERE

It cannot be, without telling, about God's great Love for people, when the matter becomes known, a lot of aid goods and equipment will come to the locality, and large numbers of people will tell in advance about the future and educate local people, to face the future and e.g. to help the injured, disaster-stricken community.

What other thing in the middle of our time could raise the glory of God in our midst more, when God brings Finland and Israel together to help in the case of various disasters, already with advance help the effects of the upheavals remain at the point of losses, as small as possible, in terms of matter and people.

Finnair and El Al, together, operate in advance in disasters, take equipment and personnel, reduce the effects of disasters.

When it becomes clear that physical and mental aid is a priority, when assisting in disasters, a spontaneous question arises from the aided, what makes people far from home to help. Then there will be a natural opportunity to share the gospel.

THE GOSPEL IS NOT FORCED

God's best message, about Jesus' work of atonement, is not forced on anyone, in these situations, but people ask why and who brought these people to the community in advance, before the disaster, to help them in everything? The question is relevant because, by nature, a person does not feel that helping a distant, unknown neighbor is important.

Then people's hearts will be open, to receive God's Love, in Jesus' work of atonement, to their own place. Even people who have joined the system from Finland and Israel, while still being separated from God, find a living relationship with God.

DISASTERS BRING A REVIVAL TO THE TOWN

Even though different disasters bring many kinds of misery, according to God's best plan, for them, Divine advance help also works, the consequences of which affect, until eternity, people, in the midst of upheavals, find a personal relationship with God.

When you think about what God has prepared, for Finland and Israel, to act together, in the event of various disasters, proactively, yes, God will receive a really great honor and thanks for them.

In a community where a disaster is coming, part of the activities to be held in advance is also to share the gospel that many, possibly dying in the event of a disaster, could go to heaven, even if they perish in the accident.

God uses, including various disasters, to bring heaven full.

When cargo planes start coming to the town, e.g. loaded with large clearing machines and people, etc., the word is spreading that the moment is coming, even the eruption of the local volcano and preparations are being made, already on their own, when it becomes certain that God will not send people and other help to the place, for nothing.

Airplanes marked with the flags of Finland and Israel are known because they move for God's sake.

On the other hand, the matter arouses fear, but the joy and hope are greater when many are faced, the future issues remain smaller, as Finnair and El Al planes operate on the matter.

Wars and unrest are also increasing in many places. For them, God also works, takes the Jewish people away from those places when the national airlines of Finland and Israel operate, takes the Jews to their homeland.

Now, after the war has continued in Ukraine for a long time, it has not been said that the conditions inside Russia will get better for the Jews there, rather the plight is increasing, that's why in the case of the "time of the hunter", Finnair and El Al must act, take the Jews out of Russia and elsewhere "from the same direction" and from the rest of the world, home to Israel.

ISRAEL'S FIRST AID IN DISASTERS

Israel's Magen David Adom, a first aid organization is a familiar operator, always the first to help in disasters.

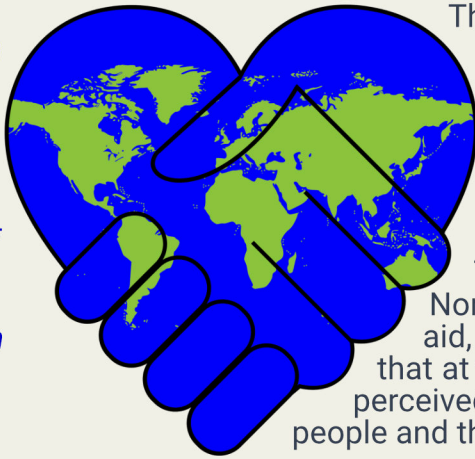

If you have noticed, you have noticed, in the case of various disasters, that almost always, the first ones, in different parts of the world, are usually the Israelis, their Magen David Adom, i.e. the Red Shield of David, through the actions of the organization corresponding to the Finnish Red Cross, helping at the disaster.

It does not help at all that Israel, its land and people, would be deprived of the pressure, blaming and isolation, etc.

There will be a drastic change in the matter, God willing, when in the cooperation of Finland and Israel, in the near future, equipment, personnel, information and training, etc., will be brought to the scene in advance of the future situation, to cause the smallest material damage in the locality. But at the same time, quite inevitably, the locality and the nation in question will be greatly touched by God's Love and Power.

GOD BLESS FINLAND AND ISRAEL

This will be the case, even if it is the case with North Korea and other countries, that proactive aid, in the case of various disasters, will prove vital, that at the same time the spread of the gospel will be perceived as a lesser "evil" than material aid, in terms of people and the social structure in the locality and the state.

Through God's best will, Finland and Israel, without distinction, go all over the world to help in advance, in case of various disasters.

In the course of time, even the now closed countries will experience various upheavals and then they will be open to proactive help.

This will be the case, even if it is the case with North Korea and other countries, that proactive aid, in the case of various disasters, will prove vital, that at the same time the spread of the gospel will be perceived as a lesser "evil" than material aid, in terms of people and the social structure in the locality and the state.

THE MATTER NEEDS CONSTANT PRAYER WORK

At this point, there is a great need for everything to be possible, it usually starts as a joint action between Finland and Israel. Both God gives, constantly information, about future disasters, and proactive measures for them, can be initiated and taken to each locality, as a long-term action, all the necessary equipment and personnel, etc., a wide variety of things, to face the thing, in full God's will.

Hundreds of thousands of people need to be recruited, for these disasters, to transport and build infrastructure, to help before and after the disaster, as well as plenty of personnel to carry out all kinds of assistance, for the entire disaster.

For everything to flow and happen, in good order, so that people are best helped, even in the case of disasters that happened in bad places, abundant, unceasing prayer work is needed for them. Only God can give everything, the knowledge they need, things to happen smoothly, people to get the help they need.

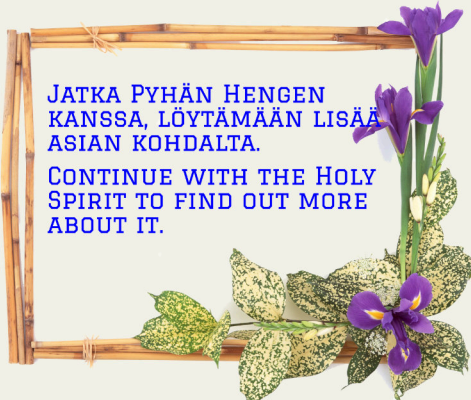

A multifaceted prayer is needed, when anticipatory disaster work becomes possible, in full God's will, e.g. in the case of many things, to come into contact with God, in addition to other good things.

God says in the Bible that he gives believers information about what God is doing in our midst. In this way, different disasters are also not without God's forewarning, for believers to get information about them, which will "start the machinery", to open up new proactive aid targets, around the world.

Here are "small frameworks" for this matter, which God's Holy Spirit can further build, for each visitor to the website, to be involved in the matter, as God leads things to happen.

Be blessed in your life.
