

FINLAND'S NATIONAL VOCATION

- MIKKELI 2

www.fin-nv.fi

BY GOD'S WORK, MIKKELI WILL SOON BECOME A BIG CITY

THE WHOLE OF MIKKELI GETS A NEW COMING, AS GOD REVOLUTIONIZES THE CITY TO SERVE GOD'S BEST PURPOSE. WHEN A THING IS IMPOSSIBLE FOR MAN, GOD GETS ALL THE GLORY. THIS IS WHAT HAPPENS WITH MIKKELI.

MIKKELI 2

MICHAEL IN GOD'S PLANS

In Mikkeli, it is commonplace, everywhere, to see workers wearing helmets, busy with work.

Above, **Mikkeli 1** page has gone through things about Mikkeli, looking at the whole thing from the point of view of God's creation and what Mikkeli has developed / lived so far, etc., before the Finnish national vocation came among us in Finland.

In the future, we will go through the things that God has reserved for Mikkeli and Finland, very big, even supernatural things.

It has already been mentioned above that Mikkeli is now a relatively small town. This thing has a great purpose.

In the future, the vast Mikkeli is like an anthill, everywhere in Mikkeli there are various construction projects in progress, the construction of buildings, transport links and e.g. municipal engineering sites, etc., along the regions.

A LARGE CONGRESS CENTER IN MIKKELI

God has spoken that a large convention center complex should be built in Mikkeli, for the meeting activities that take place in Finland's national vocation, which will be done, at least in two stages. First, a smaller part is made, which seamlessly articulates with the larger part to be built later, into a unified functional space.

There is a rush to get Finland's national vocation, many functions, and therefore the aforementioned construction project, a large congress center complex, with a total of up to 100,000 seats, completed in several stages. It's humanly insane, but it's God's best plan for Mikkeli, in this time.

The future Mikkeli congress center will serve God's best purpose, for as many as possible to reach heaven once.

MIKKELI'S HOTEL COMPLEX

A lot of previous work is needed, to build hotels, so that tens of thousands of breakfasts can be served in Mikkeli's new, future hotels, without forgetting other hotel services.

By God's will, there is a need to build a large hotel center complex, a hotel center with several tens of thousands of accommodation rooms, so that everyone who comes to Mikkeli in the future can be accommodated in the community to accompany the convention center complex to be built in Mikkeli.

Of course, at the very beginning, people coming to Mikkeli will stay in summer cottages in the town and nearby areas, as well as construction workers, in various temporary accommodation facilities, before the hotels are completed in Mikkeli. There are plenty of summer cottages in the region, after all, Etelä-Savo is the region with the most lakes in Finland.

A LARGE AIRPORT

Mikkeli needs a large airport, so that all the movement that will happen in the future to and from Mikkeli, Finland's national vocation for all things, the matter includes many things, the movement of people and goods.

God's ways are much higher than what man thinks.

Airplane traffic in Mikkeli will be really busy, Mikkeli's new airport will be the busiest airport in Finland. The movement caused by God brings visitors to Mikkeli in large numbers, from everywhere, to receive things from God.

CLOSED TRAFFIC CONNECTION

The traffic between Mikkeli new, the congress center and the hotel center, and the airport, needs a closed system.

However God will lead things to happen, it is obvious that Mikkeli's future convention center complex and hotel center complex, as well as the large airport, are located separately from each other and easy traffic connections are needed between them. For these completely new construction sites, it's easy to do, on undeveloped terrain.

It is very likely that the traffic connections described above will be managed, through a closed traffic connection protected from outsiders, so that movements will be smooth. The form of connection can be a road or rail connection. Or the connections can be both road and rail connections, thus enabling easy movement in God's affairs, in the case of Mikkeli.

THE FLOW OF THE HOLY SPIRIT IN MIKKELI

When the descent of God's Holy Spirit to rest in Finland and Mikkeli has taken place, information about it spreads around the world.

This is how Mikkeli becomes e.g. large numbers of design groups of believing entrepreneurs, from all over the world, to design the products of their companies, because in Mikkeli their work goes much faster and it is possible for them to receive, in Mikkeli, God's irreplaceable inspiration that they cannot get elsewhere.

This part, God's plan for Mikkeli, affects in many ways, e.g. traffic to increase greatly in Mikkeli, as well as the need to build new business premises, etc.

Mikkeli is able to provide facilities, e.g. for the numerous companies that come to the locality, as God's superior wisdom rests over the locality.

Together with the companies, the employees of the different companies who come here are part of God's movement and attend the events of the future congress center, being filled with God's best.

GOD TOUCHES EVERYONE

In the future, in Mikkeli's case, no one will be spared from God's direct touch. There are some who don't want the matter right, a small minority, moving away from Mikkeli.

Those who travel through Mikkeli, by road, by train, or fly over Mikkeli by plane, everyone, will be touched by God and in a situation where God will call them His own, if they are not already God's children.

Some can come to Mikkeli, also by water, and they too will be touched by God, after coming to Mikkeli.

Many come to Mikkeli's meetings, from a wide water area, by water, using ancient waterways.

Everyone in Mikkeli and its surroundings will encounter God's Power. It is up to them to choose whether they want to be in communion with God.

Just as Finland is the "most" country from which you can't go further north by land, Mikkeli is also the most extreme place by water, from which there is no good water route to continue north.

SOCIETY LIVES IN THE PRACTICE OF TITHING

The companies of the believing entrepreneurs of Uusi Mikkeli pay tithes for their activities, when there has been an understanding that the issue concerns the whole society, both individuals, companies and churches, etc.

When Finland and Mikkeli, including companies, pay tithes according to God's will, society receives God's blessings.

It will indeed be true in the future, also for the whole of Finland, that the issue of paying tithes in society as a whole is to bring God's blessings upon society.

THE SKYROCKETING VALUE OF THE LAND

Above, numerous issues have been brought up by Mikkeli, due to which the value of the land has skyrocketed, due to the great demand for land, in the future.

The demand for land will skyrocket the price of land in Mikkeli, but faithful landowners will sell it to those in need at a reasonable price.

People want to move to the place and many companies coming here also need land. It is diverse, the range of different companies that want their office in the new Mikkeli.

The general, expanded social structure, in the case of the vast Mikkeli, needs e.g. greatly increases the land area for shops and various sports enthusiasts. Roads, streets and parking areas, etc., also take up large areas of land.

Large numbers of people move to the area from Finland, and also a lot of people move here, from all over the world, who need an apartment for themselves.

This is how the construction of apartments, on a larger and smaller scale, produces apartment buildings and townhouses, as well as many single-family houses.

As God's own, the landowners do not ask for the land, its new price based on land demand, but sell the land at an agreed price so that those who need it can buy it.

Landowners get a blessing when they settle for a reasonable price for land in Mikkeli and its surrounding areas, which are also greatly affected by Mikkeli's change.

THE NEEDS OF CONSTRUCTION WORKERS IN THE COMMUNITY

In the future, there are thousands of different construction sites in Mikkeli, thus different sites of society are being built, to serve the greatly expanding Mikkeli, different in its operations. Unfortunately, a lot of construction personnel have to travel further afield to the town every day, while Mikkeli currently does not have many beds in hotels and the like.

It is common in Mikkeli that in the case of school renovations and new buildings, school functions temporarily operate in barracks.

You can know that along the vast Mikkeli, in the future, there will be large concentrations of construction workers' residential barracks, so that traffic can be avoided as much as possible, on roads and rails, their use will remain for the use of the wide range of materials brought to the locality and the people visiting Mikkeli. In the future, Mikkeli will be, like a vast anthill, where numerous construction projects are being worked on in every direction, fulfilling the Bible's Word for Finland.

Due to the large number of employees in Mikkeli, there are e.g. construction workers, users of temporary housing options, at the very beginning.

As has already become clear, the issue of Finland's national vocation being highly supernatural is no different in Mikkeli's case as well.

IMPROVEMENT OF TRAFFIC CONNECTIONS IN MIKKELI

What God is doing in Finland and Mikkeli is amazing.

Mikkeli needs improved road connections by turning highway 5 into a highway. As well as improved train connections.

As Mikkeli's internal street network is increasing extensively, as Mikkeli expands according to God's will, the locality also needs improved transportation connections to the rest of Finland. Having the Savo line fully equipped with two pairs of tracks brings the possibility that the increase in train frequency can greatly increase in Mikkeli.

Of course, the track will run through Heinola, instead of the current Kouvola, thus shortening the travel time to Helsinki decisively.

Highway 5 should also be converted from the south, through Mikkeli, to Kuopio and further, north, into a highway.

In the case of Mikkeli, many highway 5 improvement projects have already been done, but much still needs to be done so that God's will for Mikkeli in everything can come true.

PARLIAMENT HALL ON THE ROCK IN MIKKELI

On selviö, että myös Suomen lainsäätäjät ja muut päättäjät, jatkossa taajasti vierailevat Mikkelin kongressikeskuksen kokouksissa, heidän saada kohdalleen Jumalalta asioita, joita he tarvitsevat, johtaa Suomea, kaikessa Jumalan tahdossa.

This matter knows that a meeting hall for the parliament will be built in Mikkeli, with all additional room needs, in the bedrock, in the Mikkeli city area.

This project will also be a really large whole, work premises for the parliament will be completed in Mikkeli, MPs' trips will be reduced, so that they don't always have to shuttle between Mikkeli and Helsinki.

In Mikkeli, a new meeting room for the Parliament will be built with the necessary additional facilities,

It is probably already understood that what God has planned for Mikkeli, to be the main place for the issue of Finland's national calling, in Finland, is far greater, for which all the glory must come, alone, to the Living God.

MIKKELI CONGRESS CENTER IN OPERATION

So that everyone can follow Mikkeli's meetings, the events are interpreted in real time, in hundreds and hundreds of languages.

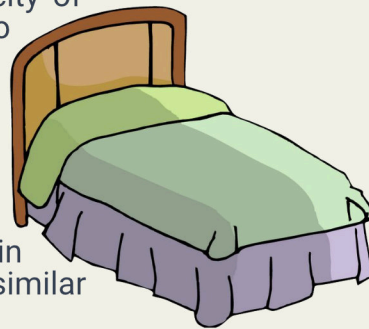

One form of activity of God's, Finland's national vocation is the Mikkeli Congress Center, where various Christian teaching and other activities are constantly held. Large crowds of people from Finland and abroad come to Mikkeli in a constant stream, to visit the meetings of the Mikkeli Congress Center, to receive various good things from God and e.g. capabilities, to take the message of the gospel, to their home places, abroad.

Meeting activities take place with immediate simultaneous interpretation, people choose the language in which they want to listen to the speeches of the meetings, etc. for the headphones.

Meetings are recorded and shared e.g. via satellites to all parts of the world, people can watch them in their own homes, or even on their mobile phones, anywhere. There is much more involved, but I will leave it out now.

MIKKELI'S HOTEL COMPLEX AS A PART OF THE WHOLE

A hotel complex is being built in Mikkeli, the room capacity of which is constantly full, from the builders who came to Mikkeli and meeting guests who came to the town and other people who visit Mikkeli, e.g. the personnel of numerous companies who came to the town to get accommodation in hotels, before the apartments are made for them.

Mikkeli's current hotel room capacity is completely insufficient for Mikkeli's future accommodation needs.

The hotel complex makes it easier for people to stay in nearby towns and summer cottages in the area and similar accommodation, etc.

As Mikkeli as a whole expands, its population increases greatly, not least due to the fact that the hotel complex needs a large staff, to manage 24/7, everything to be done smoothly, the hotel offer to be first class.

Mikkeli currently has a hotel capacity of 512 rooms, and the corresponding number in the whole of Etelä-Savo is 1220 rooms. This way you can easily understand that in the future there is a great need for a large hotel complex, that the greatly growing need for accommodation can be satisfied in the locality.

MIKKELI'S NEW AIRPORT

Although the people of Mikkeli and Finland serve God, e.g. within the framework of the laws, security checks are also needed at Mikkeli's future airport.

The future, large, movement of people to and from Mikkeli needs a large, modern airport, so that people can get directly to meetings in Mikkeli and direct connections also serve the needs of the companies in the town and those who have come there in terms of easy movement of people, etc.

The airport also employs a lot of people in the locality, 24/7, all year round.

There is a need to get them to the locality, also from abroad, when Finland probably won't immediately find enough competent staff to meet the needs.

THE HOLY SPIRIT GIVES MORE INFORMATION

Only basic information has been given about the issues, so that God's Holy Spirit can share with each of them, their own additional information about the issues, for them to be equipped for the realization of Finland's national vocation for Finland, with a matter specific to them.

In any case, it must be said that, what God is bringing to Finland, the matter of it is exceedingly great, and in the case of that matter, one could say that things are completely ready, so great are God's plans for Finland. To God alone, Glory and Thanks.

It is the natural condition of a believer to be dependent on God's Holy Spirit in everything.

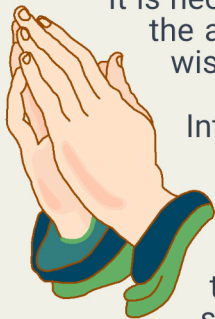

THE CAUSE OF GOD, MIKKELI, NEEDS PRAYER

The matter, the prayer work for Mikkeli, the matter of God, is wide and varied.

Here are just some examples on the subject.

The city's land grabbers need all the wisdom that Mikkeli's future, great growth will take place in all God's will.

For Mikkeli, and also for Finland, there are many areas that need prayer work, for Finland's national vocation to come true in everything, for God's glory and thanks.

It is necessary, e.g. in the case of the congress center, the hotel complex and the airport, their designers, to do the work according to God's will, with all wisdom.

Interpreting the meetings of the Congress Center and e.g. television, needs staff, things to serve meeting visitors and their viewers, around the globe. These things need prayer.

As the price of land rises in Mikkeli and the surrounding area, we need to pray that the land is not demanded at the "last price", but that it is sold to those in need at a reasonable price.

It is also good for everyone to pray about what God wants for him, about Finland's national vocation, about Mikkeli and about things in general. In the case of Mikkeli, in the future, there is an endless need for different tasks, to get the authors for them. Could you, a visiting friend on the website, be a person in God's plans, for Mikkeli?

There are many believers, in Finland and abroad, to whom God has told Mikkeli, they should move there. Things have come to the fore here, why it has happened. Be blessed.

God's worlds are much more rewarding than magazine stories.

Next, continue to **Final Summary 1** page,

where the subpages of the realization of the invitation begin

and the entire Invitation section, a condensed summary.

I saw that visitors to the website get a condensed overview,

also spiced up with some additions, for that matter.

**GOD'S, MIKKELI, IS A GREAT TABLE OF GOD'S BLESSINGS
THAT AFFECTS EVERYWHERE.**
