

FINLAND'S NATIONAL VOCATION

- FINAL SUMMARY 2

www.fin-nv.fi

IN GOD'S PLANS, FINLAND FULFILLS ITS PURPOSE

FINLAND'S VOCATION COVERS THE ENTIRE FINNISH PEOPLE, FOR THEM TO BE INVOLVED IN THE REALIZATION OF THE MATTER, FOR THE BIBLE TO COME TRUE IN THIS WAY, FOR MANY TO COME INTO CONTACT WITH GOD.

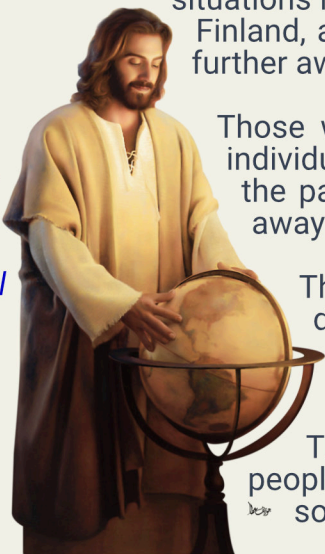

FINAL SUMMARY 2

GOD TURNS EVIL TO SERVE HIS GOOD

There are numerous examples in the Bible where the people of Israel, or their enemies (neighboring nations), led the people of Israel away from God's direct, good plans.

When one who sees, looks at Finland's past, from far and near, in time, one can see numerous, different situations in which, by the Finnish people, or through something from outside, Finland, as a nation, has more or less done things that have taken Finland further away from God's best will.

God also uses evil, that His best will come forth in our time, the changed Finland that will come from it will prove to everyone.

Those who see, have been able to see how the people of Finland, as individuals, have done, in their everyday lives and our decision-makers in the parliament, etc., things that have been pulling God's blessing hand away from our people.

This development has already been increasingly continued for decades, just like the progress of the world around us, has also continued in the same way, the Bible foretells that in the end times there will be an abandonment of God.

There is no obstacle for God, fulfills the Word of the Bible for the people of Finland, when we have deviated from God, denying Him in our society.

In God's permissive, best will, God will turn the people of Finland to him. At that time, there is no one to take the honor and praise that belongs to God alone, from Finland. Hallelujah.

IT CAN BE SEEN FROM HISTORY, SATAN'S KNOWLEDGE, FINLAND'S VOCATION

When God's plan, the birth of the last soul-harvesting nation in the end times as a nation-state, the birth of the Republic of Finland, was at hand, in God's plans, the matter, Satan immediately rose up to oppose, raising the independent nation of Finland in the first moments, a "fraternal war", so that the Finnish nation-state would immediately leave the nation-states, at the will of Satan.

When Satan brought World War 2 to the world, Satan wanted, as part of it, to destroy the Finnish nation-state again, if possible. At that time, Mikkeli served as the Headquarters of the Finnish army staff, as a pre-fulfillment, Mikkeli, later to be, as an actual fulfillment, the Headquarters of God's armies, when God raises Finland, its calling work, to take the gospel, everywhere, everyone hears that they can choose to become God's friends.

Mikkeli, the capital city of God-allowed Finland, World War II, wars, is about to be completed, to be the headquarters of the last harvest of souls.

Right after we survived the 2nd World War as an independent country, we began to abandon God, with the destruction of God's protective, sexual norms, as a result of which destructive cohabitation and abortion laws were added to the laws of our country.

The media penetrated, first in the form of TV, into the middle of family life, bringing entertainment, in many ways, to break the sound Bible Word, the basis of people's lives.

Now it's on everyone's phone, from which you can "drink from the filth of sin", to our own and our neighbor's, temporal and eternal destruction.

The violence and many kinds of brokenness of our time, as well as the lack of purpose in life, HAS BEEN SOWED AMONG US through the media, at the will of Satan, it will be avoided by eternity in hell.

The "green idea" is a good, positive development in the middle of our time. According to some, sacrifices must be made so that "nature is saved", e.g. the climate does not warm up, it is possible to live here. Carbon dioxide has to be "brought under control", to make life possible through it.

However, it is carbon dioxide that enables the vast, vital greenness in our midst, which is in many ways necessary for us to live in the world.

Finland's well-being has been weakened, e.g. by banning the use of renewable peat in the many broad needs of our society, for which this is best suited to be used.

Behind this issue too, one can find the evil intentions of Satan, if possible, to destroy Finland, from being a nation among nations.

In the created recession, in the last century, we were "joined" as a slave to the EU through a lie, as Satan's goal, to destroy Finland, if possible, so that we, as a nation, could not fulfill our national vocation and thus Satan could avoid eternity in the torment of hell.

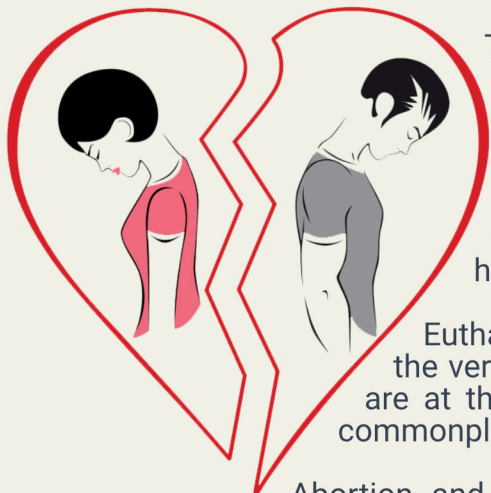

Now finally, through "false information", we were "joined" again to a new imprisonment, when our media and our bad decision-makers, misguided, had "painted" Russia as our enemy, with whom we cannot, or should not, have dialogue and cooperation, when Russia, in Ukraine, reacted to the West to previous actions there, to the threat of Russia.

The issue is related to the fact that our media, before or now, have not told what, a lot of bad things, the countries of the West, under the leadership of NATO, are doing in the past and now to the population of Ukraine and the country in general.

Many, in Finland and abroad, including believers, are believing what the devil, together with the West, wants people to believe, that only Russia is to blame for the war in Ukraine. It's not that black and white. This, told here, with all the Love of God, not judging or separating.

The Finnish media, together with the Western media, are very much corrupt and their message is not tied to the truth.

When a deceived person seeks selfish "benefits", he violates his own and society's well-being in many ways, thus fulfilling Satan's evil intentions for Finland.

The "image" of our time is that "each of us can create our own truth" and those who say otherwise are insulting and doing different levels of violence to these misguided people, etc.

It's a woman's right, if she wants to have an abortion, when "it somehow doesn't suit the woman's life", that a human being created by God will "disrupt" her life!

Euthanasia, it is right, we end our days, prematurely, when, at the very least, the young are depressed and when the elderly are at the end of their life and many troubles and pains are commonplace.

Abortion and euthanasia, if properly understood, in the case of Finland, are, in addition to a personal defeat, a direct attack by Satan, if possible, remove Finland from existence and thus Satan could avoid eternal torment in hell.

Alcoholism, drugs, promiscuous sex life, gambling addictions, society's dishonesty, broken society, etc., in the case of Finland, are correctly seen, Satan's means, if possible, to avoid eternity in the torment of hell.

GOD IS SHAKING THE WORLD

When Finland, as a nation and as a country, as a whole, has become obedient to God, it cannot but affect the life of the country and people of Finland, that EVERYTHING THAT IS NOT OF GOD IS REMOVED FROM SOCIETY, including every born-again Finn.

The matter is revolutionizing Finland to the very core, that we do not fit, or want to belong, to "the same tables of darkness", where we were before, looking for unsustainable prey.

After the nation and country of Finland became obedient to God, the numerous criminal agreements and plans made and kept secret, Finland's own and with others, etc., will inevitably be revealed. Finland leaves behind a life of sin and turns to do God's will for itself.

There will come, according to the Bible, a time when secrets will be "shouted from the rooftops". That thing happens, e.g. As Finland turns, to serve God as a nation.

No matter how it happens, if the EU, the nest of evil spirits, falls before Finland comes to obey God, then it will finally collapse, after Finland comes, for the people, to the truth and to God in everything. At the same time, a state will "come", in which the "ten-state alliance" mentioned in the Bible will be formed, on which platform, after the rapture of believers to heaven, the false prophet and the antichrist will rule the world, for a while.

The collapse of the EU, together with the truth in Finland, are a strong act of God, to bring the deeds of darkness to light and to be condemned. This is how "there will be space", for God's best things to happen, in Finland and in the whole world, and many more people will come into contact with God.

God wants, broadly, believers in Finland and elsewhere to foresee and thank God that God will break our time, the strongholds of darkness that bind Finland, that God's best will can happen in our midst, to God's glory and thanksgiving.

The time will come, in Finland and internationally, for lies to be revealed and evil to be rewarded. May the matter happen, in God's best will, also for Finland.

GOD REMOVES COWARDICE

If you want to describe the world of our time with one word, that word is fear!

Parents, as far as the Finnish people are concerned, can remember a time, in ours, when it was a great honor for a person that they could be trusted. Similarly, at that time, there were few "places locked" in a house, so that an outsider could not get to the warm place in the winter frost, even if the people of the house were not at home.

Those times are now, just memories. Every kind of development of our time has brought with it, in our midst, a variety of and ever-expanding fear, to shackle us with injustice.

The decision-makers of society are not putting up obstacles to fear, but on the contrary, they are always bringing new reasons for fear into our midst.

It's time for Finland to stop living in fear and be strong, as a nation and as individuals, to do the full will of God, for God's glory and thanks.

Those in the know have said that even 4/5 of the fears are unfounded. For the majority of the remaining things that cause fear, we can influence them with our own actions, either remove the cause of fear, or influence so that the matter affects us as little as possible.

There are very few reasons for fear that we cannot influence ourselves, for example by finding out about things, but even for those, we can go through them in God's loving care.

The above mentioned, Finland's "joining the EU" and the more recent "joining NATO" have happened through fear, with a lie, things happen when there is no desire to remove fears, by going through things thoroughly and investigating them.

Fear, Satan uses sorrow against people to avoid hell. Not for nothing, God has written in the Bible, enough, enough for every day of the year, the commandment, DO NOT BE AFRAID!!

Living under fear, DOES NOT belong to the life of a person of faith, even though the subjects of different levels of fear, our time contains all the time.

GOD HAS PREPARED FINLAND

It is a pleasure to notice that there is an increasing spiritual awakening and a hunger for God in the churches in different parts of Finland.

Let's talk openly about the coming revival and be happy that things are changing in our midst, the revival is starting, in the Power of God in our midst.

Revival involves that first God draws his own, close to him, to have them cleansed, so that revival can come.

The media are already writing about how the young men of Finland are leaving the "cracked wells of the world" and are coming to God.

The believing parents and grandparents of Finland have faithfully continued their intercession for their posterity, and here we can see the first fruits of that. God does not fail, nor is he late, in the case of our relatives, if we faithfully manage to bring them before God, for them to obey God.

Now a rare Sunday school, it will permeate Finnish society, along with other Christian activities, after Finland has joined God as a nation.

MANY BELIEVERS LIVE IN FINLAND BY GOD'S WILL

It is not a small group of believers who have, until the very last days, come to Finland, yes, Finns who previously lived elsewhere, like people belonging to other nations, when God has made it clear to them, they should move to Finland to live.

Many in Finland get an understanding of why they have moved to live in Finland, to do God's will for them.

Although in their current life, they are possibly working in God's kingdom, they have, until now, lacked God's views of what God is bringing to Finland among us, in this time.

For the many, many believers who have moved here to Finland, this is how the vistas open up, expand, about their calling, when they receive information about what God has reserved, very great things, for Finland.

The information on this website serves them too, in the best will of God. From whom honor and thanks should be given, only and only, to the Living God.

EVERYONE IN FINLAND CHOOSES WHETHER OR NOT TO DO GOD'S WILL

Finland is not an exception in any way, in the world, and that Finland is "one man", doing work, in the last harvest of souls, it has been necessary for everyone to choose whether to come to God, or to continue their life as a self-willed person, disconnected from God.

According to God's clear revelation, Finland, only a few percent short of the nation's entire population, is in God's work and Brother J. has not been able to "water down" the matter, even thinking that such a large part of the Finnish people cannot possibly be God's own and do the right thing, work for the glory of God. It would be the humanization of Almighty God and it is not appropriate for anyone to do that.

Right now, we can see and live for ourselves, Finland's calling, and it is certain that in the case of Finland, millions have responded to God's call, yes, and this is how they are serving the Living God in their lives.

In the future, media companies will also choose whether they will live in the truth, just as the Finnish people, its individuals, live in the truth.

Our international name, Finland, given by God to our country, means, for example, that "the best wine is left for last" and therefore, it is obvious that almost the entire Finnish people, have received grace, accept the atonement of Jesus' sacrificial death for themselves and this is God's children and heavenly heirs.

THE PUZZLE PIECE FINDS ITS PLACE IN THE PUZZLE

God's calling, Finland, is a large whole, like a puzzle, to which the life of every believer, as a "puzzle piece", fits perfectly, to build the whole wide picture to perfection, as God wanted it to happen.

Finland's national vocation has been made public so that the believers of Finland could find, God willing, their vocation work for their life. This is how Finland can be completely intact, to the glory of God.

One can think that God has opened to many believers in Finland, the matter of his vocation, in which field and how, he is working in his life for the glory of God and for the temporal and eternal good of himself and his neighbor.

Even though this has happened, it has not been possible to "find a framework" where the matter of vocation will be concretely revealed in our midst.

As anyone who has gone through things on this website, in order up to here, can know, Finland's national vocation is a very broad, diverse set of issues, in which there is an almost endless amount of different work tasks, to make all God's will happen in the matter of what God has in store for Finland, a lot of God's the best, after it is transmitted through Finland, to the whole world.

IT CAN HAPPEN, A LOT OF THINGS THAT THIS WEBSITE DOES NOT TELL ABOUT

In the case of Finland and more broadly, a lot of things can happen that are not mentioned on this website, it happens on purpose, by God's will. This website focuses on telling, only what God has wanted, for the people of our time to get information, what is written in the Bible about Finland's vocation and how it opens up for the Finnish country and people to be realized in our time. Brother J must follow this matter, that he, in his life, serves the Living God.

Some things, from the middle of our time, have only been told as small mentions, to build an overall picture of Finland's vocation. And many things have been completely ignored because telling them is not building the thing to be told. A line has to be drawn somewhere, and it is now where God wanted to put it.

Like a farmer, he focuses on one type of seed, wanting a certain harvest, this website also only tells what God has set forth to bring forth.

When, now a stupid people, has sown many harmful things in their midst, not their harmful crops, all, can remain uncut, no matter how, in the future we would sow good seed in our midst. One thing where we will certainly have to reap the harvest of our evil sowing is abortion, which has removed from our midst, large numbers of people who it was God's will to enrich the life of our society.

However, it must be said that the conditional takeover of Finland by Russian military force, which was mentioned earlier on this website, in many prophecies told by others, is not happening, because the Finnish people will turn away from their sinful ways and fulfill the Bible's Word, to take the gospel, everywhere, for everyone to hear it, thus to choose, to become God's friend.

THE WEBSITE'S MESSAGE FROM GOD, PART OF VELI J'S CALLING

It has already been many years, well over twenty years, when God saw fit to tell God's, Finland's calling, to his little servant, Brother J.

Brother J., by God's will, has "built a picture" of Finland's vocation, in the Bible, to make the Finnish people aware of it. It is also, in God's best will, part of Brother J's vocation work, in his life.

One might think that this message could have come out in Zion, Finland, much earlier. However, ONLY God knows the right time, when to give things to people's knowledge, from there things will develop, as God wills in each case.

Many, different things have had an effect that now the matter of Finland's vocation has come to light, in everything, in God's best will.

Brother J. knows that for him, given by God, bringing up Finland's national vocation, if everyone wants to, to make the matter known, is part of his vocation. Therefore, in Finland, or anywhere else in the world, this thing that has been brought up before has not been brought up before, as, it has been brought up now, in all the will of God.

Brother J's entire spectrum of personal vocations is very much connected to the matter of Finland's national vocation, but let it remain unsaid in this context, because it does not bring additional information to the whole of Finland's national vocation.

THINGS, TO TELL FINLAND'S VOCATION, ARE LACKING

No matter how much you continue to tell the story of Finland's national vocation, it always falls short. This is how God has intended it, so that God's Holy Spirit will be left with every Finnish believer, a space where the Holy Spirit will connect each believer perfectly to build Finland's national vocation to be finished, as God wanted it to be.

Even though Veli J may have had further ideas about some of the issues of Finland's national vocation, what about them have been brought to the fore on this website, in the best will of God, they have remained unsaid. In this way, God's Holy Spirit is left with the freedom of how He makes each believer in Finland, best "articulated", a part of Finland's broad calling, in the best will of God.

It is, usually, that the things that God is bringing into our midst are confirmed before the matter is brought forth. Brother J. is becoming aware of this matter, but is "forced" to publish God's message, even though no other person has become aware of the matter, before its publication, to publish his confession about it.

Something about why this has happened becomes clear when the visitor continues to familiarize himself with the Final Summary 3 website and its content.

From Finland and also from more widely, until recently, there has been increasing information as a strengthening message that we are already living a revival in the middle of Finland. What God has told Brother J, things possibly years ago, now you hear the same things told in many churches.

Brother J has the full peace of God on the matter, with the things he has published on this website. No one can himself bring God's confirmation to his matter, that God's confirmation will come to the matter, that the matter be from God. It is in God's control how he establishes his case, for each case. Point.

The confirmations have already come, although the "confirmation givers" do not know that they have been used by God for these things.

It's just that God has willed, only one little person, to reveal his matter and it must not be mixed with anything else that God has revealed to him. This matter is of primary importance to God and e.g. therefore, the matter of this website has not been brought forward to be examined and accepted, as born of God's will, before its first publication. The main thing is that the thing is from God and brings about what it was revealed to people by God for.

The following is the **Final Summary 3** page, through which God wants visitors to this website, to find out what kind of, well, through a weak and insignificant person, this announcement of God, about Finland's national vocation, from the pages of the Bible, the matter has taken shape, it is now accessible to everyone who wants it, get to know it and embrace it, as part of the believer's life.

Like when we read the Bible, about the many different things and events written there, they are organically told, the narration of the lives of the persons involved in each issue, without which the narration would somehow be lacking.

God wants the visitor to this website to be aware of some of the stages and things in Brother J's life, so that he can gain understanding, e.g. with what seriousness God regards Finland and its calling, etc.

The matter is also helping the matter, so that no one would imagine that Veli J. "made up what he told" and stubbornly, is now bringing them up. Brother J., by God's great grace, has been able to attend God's "school of growing small" for a long time, so that now the matter of this website has been brought to the fore.

Next, go to the **Final summary 3** page, (the page is not available as a PDF file).

Thank you.
