

FINLAND'S NATIONAL VOCATION

- FULFILLMENT OF THE CALLING

www.fin-nv.fi

THE LAST CHRISTIAN REVIVAL OF OUR TIME

THE ROAD TO GOD'S WORK IN FINLAND, TO THE HARVEST OF SOULS, REQUIRES A LOT, A BIG CHANGE.
GOD PROVES TO BE TRUSTWORTHY AT THIS POINT AS WELL.

FULFILLMENT OF THE CALLING

THE POSSIBILITY OF GOD'S, FINLAND'S CALLING

What God has charged, for the realization of Finland's national vocation, for these end times, the matter is the last and at the same time the greatest Christian revivals of the ages, to be incomparable in every way.

What can be said about it in general, God's glory is at the top of the matter, really, really great.

When you can know that there are still billions of people who have not come to God in our time and the matter, those people's coming to God, has been written in the Bible, given to the people of Finland. Satan has known this and wants Finland to not be able to fulfill the national purpose of its existence, to fulfill the Word of the Bible as it should.

However, Finland will fulfill the Word of the Bible, the end of the church age, the rapture of believers to heaven.

When you look with natural eyes at the Finland of our time and how it has been sinking in many ways as a society for decades, into debt, making many bad decisions, and at the same time enjoying the pleasures of sin, you can see that the fate of our nation is already sealed, a loss.

Our enemy Satan would like it to be this way, but God is faithful to His Word in the Bible and other things happen.

When God gets the greatest glory, is when we are a people, completely at a standstill, trying to save ourselves. God specializes in impossible situations. God has patiently watched the downfall of Finland and the increase of our nation's malaise, things get to the point where God takes hold of us with power and turns our destruction into serving God.

What God has planned for Finland, it certainly seems impossible to come true. That requires God's sovereign intervention. It's written in the Bible that it's already coming true in our midst.

In the links to the short narratives of the issues under the title, **The fulfillment of the calling, pages** on this page, you can find the narrative, more information about the issue of Finland's national vocation, its realization. There, by the grace of God, a wide variety of information has been gathered, on the subject of the national vocation of Finland as a whole. I saw the people of Finland, to get the best possible information on the matter. This is how Finland gets ready, to fulfill the Word of the Bible, according to God's will, in our many times to come into contact with God.

Of course, in the menu of the website, **The realization of the calling, subpages**, under the tab, you can find all the writings about the realization of Finland's national calling, on separate pages, thank you.

FULFILLMENT OF THE CALLING, PAGES

It is wonderful, absolutely everything, what and how, God has taken care, perfectly, of the fulfillment of Finland's national vocation, in absolutely everything. For that alone, all glory and thanks be to the Living God!

The people of Finland know that God has done everything right, regarding Finland's national calling!

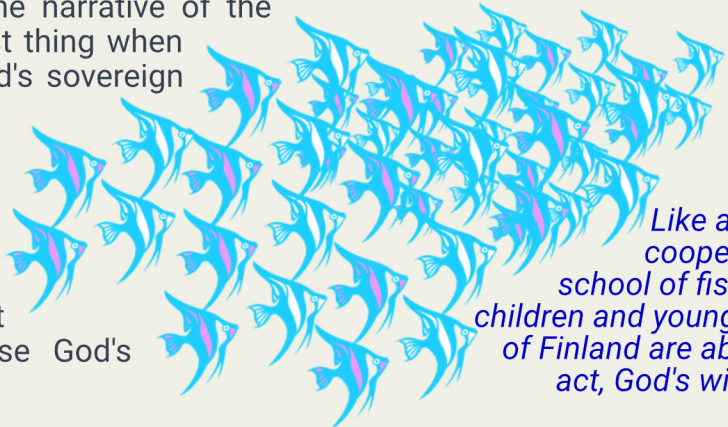

Finnish families rejoice and give glory to God, that God's full will is happening in our midst.

Children and youth begins on the page, the narrative of the fulfillment of Finland's vocation, with the first thing when the children and youth of our nation, by God's sovereign action, come into contact with God.

The event described on this page is a completely supernatural act of God, which gives Satan's purposes, in the case of the Finnish people, a complete knockout blow. Thus, Finland, in an instant, becomes obedient to God. One cannot but thank and praise God's greatness and wonderfulness.

Like a closely cooperating school of fish, the children and young people of Finland are about to act, God's will.

98% from the page, the visitor gets to know God's radical things when he visits e.g. find out how widely the people of Finland come into contact with God and what causes actions that reach all the way back to the time before the rapture of believers into heaven.

It is amazing how God cares extensively for those in the Finnish nation who have not, before the rapture of believers, come into God's communion.

Non-stop the page brings to the visitor's awareness, a very important thing, thinking about the Finnish people's well-being in everything, as best as possible, in the way God intended. The population of Finland is widely involved in the implementation of the matter, with the power of God's will to happen in time in our midst.

It is God's will that all Finnish congregations and also Finnish congregations in the world are in the prayer circle 24/7, in the affairs of Finland and the world, before God. Thank you, thank God, for this great thing.

24/7 prayer activities are organized in Finland, in the churches, God's will also be transmitted to our people in this way.

Sowing and reaping on the page, we go through the changes that are taking place, regarding things that are not happening now for many believers and in church life, and not in church teaching, according to the Bible.

Sowing & reaping, the central reality of how the world works, can be felt on some level, somehow, but living it as a reality in the life of a believer is only true for a few believers. The point is, God wants change in Finland and also in the world.

The Finland network page thing, is one of the things that God really takes care of, that you can think of, at a time when Finland is God's work, turned from sin, to serve God.

Now, when Finland is "broken" in many ways, God will fix it, very quickly, after Finland experiences an inner change. What God has in store for Finland's wholeness, no human being can possibly make it happen in our midst. God's healing actions, in the future, are unparalleled in Finland.

God will take care of new encounters between Finnish children and the elderly, for the good of Finns.

God's blessing is the thing that makes our nation flourish, like a dry, dead land, when it receives a refreshing rain of water, is enlivened into a multifarious life, many people can enjoy it, their lives can be good.

God will make sure that the people of Finland, who have turned to Him, will get back the things and property that we have looted and wasted in many ways, and our nation will use them for the glory of God, also serving others.

What we do here in time always has consequences. **The Falling Payments** page talks about how we as a nation cannot escape from the past sinful life of the Finnish people. This is how our enemy Satan sends us "creditors to demand payments", which we "have to pay".

But God prevents a part from remaining "unfulfilled", because as a nation we are at our place, doing deeds worthy of God, which will last, even in eternity, before God.

Why has God written the task, for Finland, on the pages of the Bible, it is a matter of Finland being "God's worker", the nations of the world, to hear the gospel, in this end time.

The evangelization page tells about this very important thing, which determines the time when God takes believers to heaven, after joining God, the necessary number of people, the rapture can take place. Therefore, now our society is messed up when our enemy satan does not want our people to do their job.

Finland fulfills the Word of the Bible in its place, by telling the gospel to the whole world, according to God's will.

The Northern Completion

website tells how God has sovereignly put Finland in its place, so that a lot of God's good things can still happen in the middle of our time. After all, it is said in the Bible that the remembrance mentioned in the case of Israel, God bringing them out of Egypt, is changed to bringing them out of the northern land.

As the Bible tells us, it changes in the case of Israel, remembering the departure from Egypt, to the thing, the liberation of their people from the northern land.

Finland's departure for the evangelization of nations causes the "wounds of our people" to "grow over" in many ways.

What, a lot of good things are already happening in our midst, so they won't all go away, that's all, but we have to pay attention to them, for these good things to happen in our midst.

Finland's transformation is a process that our entire nation must go through, on the way to integration.

How God has led Finland and Israel, their flags, it's amazing.

It is no coincidence that **The flags of Finland and Israel** are the way they are. As far as you can tell, there were dozens of conditions for the Finnish flag, what should be the flag of Finland. Our nation's Lion Emblem is also carefully derived for us.

How, in this way, the flags of Finland and Israel overlap, form three crosses and for the middle cross, the Star of David of the Israeli flag becomes the Loving Heart of Jesus, it's amazing.

Finnair – El Al on the page is told, one thing that is a clear example of the fact that our actions are never without consequences. What we sow in our case, we always reap, without exception, in the same way.

Finnair has considered the flag of Finland, given to our people by God, to be cheap, which has severe consequences for it, however, with all God's care, on the matter.

In this matter, God turns our evil deeds to serve good.

Disaster advances on the page, one of God's precise cares is brought out, the most precisely that He cares, if possible, for many to come into contact with God, here in time.

Finland, together with Israel, goes to different parts of the world, to be on the ground in advance to help, as an aid group, when at the end of our era, e.g. many kinds of natural upheavals, etc. It is the most wonderful act of God's love.

Finland and Israel together, led by God, go to places in advance, to help e.g. in earthquakes, their victims.

Under God's exact guidance, St Michel got his name, after Michael, the angelic prince of Israel.

God has miraculously overseen things in Finland, His final perfect will to happen in our midst. **St Michel / Mikkeli** will be a place that is the center for all of God's wonderful activities, in the revival of Finland, the matter directly affects the whole world as well.

The thing, God has carefully overseen to come true, when e.g. over our country, there was still a thick ice shelf, as a result of the flood, the ice age, etc. Among other things, God alone could have brought about these things in our midst.

Final summary pages, gather all things together, as God has precisely planned, for the last revival of this age to happen in our midst, in it to come into God's communion, precisely all the people that God has foreknown about the matter, then for their rapture to heaven to happen.

Only and only, God could have planned all this and also implemented it in our midst sovereignly, in his justice. To Him, God, be all the glory and thanks, now, forever and ever.

Only, only God, can cause that man has been able to become aware of what God has planned for Finland, to be God's tool in our time.

We are very close to the greatest spiritual awakening of God in the ages and by God's great grace, Finland, as a nation, is the one who will make it happen.

Human thinking, not above, to the dimensions with which God gathers people in his union at the end of time.

THE NECESSITY OF GOD, THE HOLY SPIRIT

On this website, it has already been told many times how it is absolutely necessary for a person of faith to be able to understand the website correctly, to be constantly filled with God's Holy Spirit.

If there hasn't been a lot told on this website about things that are very miraculous and supernatural, then in the future there will be a big change in the matter.

It is difficult to grasp and properly understand the many publications that will happen in the future, so it is necessary for the visitor to be constantly filled with God's Holy Spirit.

A believer, without the constant fullness of the Holy Spirit, is acting on the basis of his reason, and his decisions often do not differ from the choices of an unbelieving person, separated from God.

And we can know that an unbelieving person does not make his choices following God's will. Therefore, it is vital for the believer to be filled with God's Holy Spirit, that he is led by God in his life, and not by himself, so that he accumulates unburnt, eternally at the court of deeds, to be taken to heaven. Every thing is really important because our temporal, eternally lasting actions will determine our degree of glory in eternity, which is no small matter indeed.

What can be understood, so in eternity, we have tasks. When we are in time, doing our things as fully as possible in God's will, it seems that we get tasks from God to do in eternity.

A person who believes in the fullest life lives, constantly filled with the Holy Spirit.

What is presented on this website is displayed by the will of the Holy Spirit and must be passed through by everyone, with the help of the Holy Spirit, thus through the action of the Holy Spirit, each visitor gets his own individual addition to the matter presented on this website, for his own good.

Even a believer can easily ignore the things on this website, as "unreal", if he does not have the constant fullness of God's Holy Spirit. Things are supernatural in many respects, but in everything, God's full will happens.

On this website, things are "told as things" and their adoption requires a person to be under God's Holy Spirit and in need of His help, this is how things happen, God's will.

Only by living filled with God's Holy Spirit, the believer accumulates a lot of unburnt, to be taken to heaven.

Every thing, it is vital for a believer that we live a life according to God's will, many good things come out of it, including for the best.

When this matter is brought up again, God wants to emphasize the importance of the matter, because in general, the life of a believer needs everyone to be filled with God's Holy Spirit. Therefore, it is not good for the believer to continue with this website, going through it, without the constant fullness of God's Holy Spirit.

But in the first place, he is seeking to find his place, the continuous fullness of the Holy Spirit, reserved by God for every believer, thus his believer's life is subordinate to God in everything and the Holy Spirit can give a person, his help and also important protection, the believer lives in everything according to God's will, which then follows, that he accumulates many deeds for eternity, which last before God, to take them to heaven once.

MAN, "NOT ABOVE" THE THINGS OF GOD

What, visitor, can you get from the lower pages of this page, much more information, about Finland's national vocation, is the source of things, God himself and in his mercy has told them, to a little person, Brother J for information.

Things that the visitor gets to know from the links on this page, Veli J. has not "discovered" them in his own mind, and then, if he had put them up here, the visitors' things would be made known to them.

There is no way that things are human-oriented, e.g. so up to the supernatural things rise.

It is completely God's project, the whole matter of Finland's national vocation, and then, Brother J's telling now, the matter of Finland's national vocation, could have happened by God, after God had told things in his grace, first to Brother J's knowledge.

Regarding the whole issue of Finland's national vocation, it is especially important that everything should be given honor and thanks, alone, to the Living God. The status of the matter is really central, its visitor will understand, as he continues to familiarize himself with the website's offer, to get more information. You're welcome.

*God must get all the glory, for everything and now,
especially, for Finland's national vocation, for
everything in it.*

**GOD HAS HAD A PURPOSE FOR
THE FINNISH PEOPLE TO LIVE
IN THEIR PLACE IN THE NORTH.**
